

AZ-115

Matrix

Zone selector (2x6)

- 🌀 12 zones
- 🌀 Small dimensions 1U 19"
- 🌀 Easy ergonomics
- 🌀 2 inputs « Music + Call »
- 🌀 Priority management

The **AZ-115** is a direct contact zone-selection cabinet. Provided with a call (microphone) input, a music input and 2x6 outputs, associated with a contact-type console GM-1066 or PGM-5XXX, it responds to easy zoning issues.

Based on relay technology, it can be put either between an amplifier and loudspeaker lines or between a preamplifier and several amplifiers.

Activation buttons on its front panel allow to activate music source in selected zones .
