

EN 54 - 24 Certified

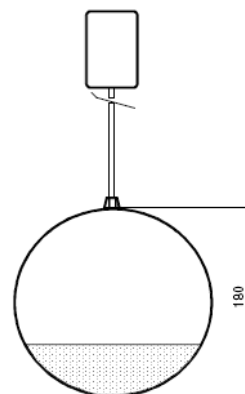

-  **Inconspicuous and multipurpose**
-  **Sound quality**
-  **Easy and quick installation**

The **KM180T-EN5424** is a spherical-type enclosure. Its design and size allows discrete installation.

It is particularly tailored for areas with under-ceiling heights superior to 3m.

This loudspeaker can therefore be used in any type of installation requiring a wide coverage.
