

-  **5-port switch**
-  **Copper and Optic Fiber ports**
-  **DIN Rail fixing**
-  **Dual power supply**
-  **IP 30**

The **ZY-IP-SWFOM03RJ** is an Ethernet switch made of 3 Copper ports(10/100BaseT (X)) et 2 Optic Fiber ports(100BaseFX (SC)). It supports multiple management functions, specially Turbo Ring technology, VLAN through port, QoS, bandwidth management or event signal through email or relay. Turbo Ring function is easily configurated through Web interface or DIP switches. Its design focusing on harsh industrial environments makes it adaptable to any high availability application. The **ZY-IP-SWFOM03RJ** can bear an operation standard temperature from 0 to 60° C..

Features

Interfaces	RJ45 x3	SC 2x2
Fiber transmission	Max 0dBm	Min -5dBm
Fiber reception		-34dBm
Fiber length		40 km
Fiber saturation		-3dBm
Power supply		24 VDC
Dimensions		135x105x53,6mm
Material		Metal
Weight		0,650 Kg
